CONSERVATION SERVICES GROUP CONGRATULATES CLIENTS ON 2014 ENERGY STAR AWARDS

WESTBOROUGH, Mass., – Conservation Services Group (CSG), the U.S. leader in residential energy efficiency, congratulates its clients that earned the 2014 U.S. Environmental Protection Agency’s (EPA) prestigious ENERGY STAR Awards. On April 29th, the EPA and U.S. Department of Energy will honor these organizations at a banquet in Washington, D.C. The ENERGY STAR Awards honor outstanding contributions delivering energy efficiency to reduce greenhouse gas emissions. CSG’s clients were selected from 16,000 ENERGY STAR partners, winning in three out of the four categories for achieving noteworthy results during the 2013 program year.

“We are proud to see our utility and energy clients continue to find new, innovative ways to spread energy efficiency solutions into an increasing number of homes nationwide,” said Steve Cowell, CEO of CSG. “CSG is honored to partner with these winners as we work together to implement forward-looking programs that will save Americans money, help protect the environment and sustain a healthier future.”

CSG clients receiving ENERGY STAR’s Partner of the Year—Sustained Excellence Award were recognized for continuing to exhibit exceptional leadership year after year in the Energy Star program while remaining dedicated to environmental protection through superior energy efficiency:

- **Arizona Public Service:** The organization expanded its ENERGY STAR portfolio, and is a regional leader in energy efficiency with ongoing commitment including Home Performance with ENERGY STAR and ENERGY STAR Certified Homes.
- **ComEd (Chicago):** The electric utility provider actively coordinated with other energy efficiency program administrators to deliver customer-centered, market-friendly energy efficiency offerings that led to getting 10 million certified light bulbs into homes and 7,000 certified heating and cooling systems.
- **Focus on Energy:** Wisconsin’s statewide utilities program received the award for its comprehensive approach to energy efficiency programs in the residential sector.
- **Long Island Power Authority:** The second-largest municipal electric utility in the nation was recognized for several programs, including Home Performance with ENERGY STAR and ENERGY STAR Certified Homes.
- **New Jersey Board of Public Utilities (NJBP):** The NJBP was honored for accomplishments delivered through its Clean Energy Program, specifically Home Performance with ENERGY STAR, which helps customers save energy while making their homes more comfortable and safe. The program completed more than 4,800 projects in 2013 claiming over 11,000 metric tons of carbon dioxide savings.
- **New York State Energy Research and Development Authority:** The public benefit corporation was recognized for its Home Performance with ENERGY STAR program, which completed more than 5,860 projects in 2013.
- **Southern California Edison (SCE):** SCE leverages ENERGY STAR to work with its nearly 14 million customers, saving more than 8.9 billion kWh and significantly reducing CO₂ emissions.

CSG clients receiving ENERGY STAR's Partner of the Year Award were recognized for promoting Energy Star products and practices in their own operations, in addition to providing efficient products and services to consumers and within their community:

- **Salt River Project Agricultural Improvement and Power District:** The nation's third largest public utility was recognized for supporting the construction of 943 ENERGY STAR certified homes, resulting in more than 5 million annual kWh savings.

CSG clients receiving ENERGY STAR's Partner of the Year—Excellence Award were recognized for their superior efforts in the Home Performance with Energy Star program:

- **Tennessee Valley Authority (TVA)** (Knoxville, TN): TVA was recognized for its strong commitment to encouraging the production and installation of ENERGY STAR certified manufactured homes.
